Call for sites mapped
Areas of Search drawn around areas where call for sites fitted best with **Spatial Strategy**, as mapped in site selection criteria

Residential: Considered if appropriate against constraints and suitability. Also considered “rules” which ensures **Spatial Strategy** would be met.

Employment: Primarily considered against **Spatial Strategy** and objectives to support strong continued growth at core, boost the economic competitiveness of the north and sustain the competitiveness of the southern area.

Reasonable alternatives: sites that left the process at Stage 3 and Stage 4.
More suitable sites: Those that remained in the process at Stage 3 and Stage 4.
