

Changes between Versions 8 and 9 of the Main Modifications table

- MM40 Policy H2, table 6.2, has been amended so that it is clear that the column headed 'indicative capacity' relates to the potential number of homes which could be accommodated on the site. Allocations H2:36 (Spon End) H2:57 (Ferrers Close) and H2:58 have (Attoxall Road) been amended to make clear that these capacity figures are net, taking into account demolitions on site. For H2:57 and H2:58 the site- specific requirements column has been updated to reference the relevant planning consents. Accordingly, MM39 para 6.12 (reasoned justification to Policy H2) has been updated for consistency.
- MM41 – the addition of a modification to part 1e of the policy to improve the terminology for clarity.
- MM76 – Correction to policy referencing which should read 'DE1 Part 1' and not 'part 1d'.
- MM79 inclusion of correction to the last part of the policy to ensure that the Policies Map is referenced instead of Appendix 9(d).
- MM84 and MM85, inclusion of corrections to the associated paragraphs in the reasoned justification so they are consistent with the proposed changes to the policy wording.
- MM99 inclusion of a correction to a policy bullet point for clarity, and corrections to the associated reasoned justification for clarity and consistency.
- MM102 inclusion of a correction to the reasoned justification associated with the policy for consistency and clarity.
